

General Terms and Conditions for Tandem Pragliding Flights

The passenger confirms that they have read, understood, and accepted these GTC.

The contract is concluded with the passenger's binding booking. Should individual provisions of these GTC be wholly or partially invalid or ineffective, the validity and effectiveness of the remaining provisions shall remain unaffected.

The flight price must in all cases be paid in advance, either in cash, online, or by credit card.

The pilot is the commander of the tandem hang glider, and the passenger agrees to follow their instructions.

The passenger confirms that they do not suffer from any health issues (mental or physical) that could affect the safe execution of a tandem hang glider flight.

The passenger is aware that participating in a hang glider flight involves risks. Swissgliders and the performing pilot hold liability insurance with coverage up to CHF 5 million for personal injury and CHF 5,000 for property damage. Liability of Swissgliders and/or the pilot for any bodily injury or property damage incurred by the passenger during a hang glider flight is limited to these amounts.

Minors or legally incapacitated passengers require the consent of a legal guardian or authorized representative. If such a person is not present at the time of the flight, a written declaration of consent must be presented to the pilot in advance.

Flight dates for tandem flights are agreed upon in advance (including short notice). Changes to the scheduled date may be necessary due to weather or organizational reasons. The pilot has the final decision as to whether a flight can take place.

If the passenger cancels the flight despite it being feasible, the following rules apply regarding the refund of the flight price:

- a) For cancellations more than 2 days before the scheduled date, the full flight price will be refunded.
- b) For cancellations on the day before, but less than 8 hours before the scheduled time, 50% of the flight price will be refunded.
- c) For cancellations on the day of the scheduled flight, no refund will be given.

The passenger confirms that they are insured against the consequences of an accident (including during a hang glider flight). Swissgliders and the pilot do not provide accident insurance.

The pilot decides whether mobile phones and cameras may be taken along on the flight.

Passengers from the USA or Canada expressly waive any right to legal action in the USA or Canada in connection with the tandem flight and acknowledge that neither Swissgliders Jonas Thommen nor the pilot will submit to a court jurisdiction in the USA or Canada.

All disputes arising from the contract concerning the tandem flight shall be subject to the ordinary courts in Thun, Switzerland. Swiss law exclusively applies.
